

**Now Glen can
get on the go
without always
stopping to go!**

For many men, FLOMAX reduces male urinary symptoms due to BPH in one week.

If you are experiencing male urinary symptoms due to BPH (also known as an enlarged prostate), you may wake up several times during the night, have problems with urinating too often, or frequently feel an urgent need to go.

The fact is, male urinary symptoms due to BPH are quite common—but you can do something about them by talking to your doctor.

FLOMAX
TAMSULOSIN HCl
